

RILEY'S TAVERN

Hunter, Texas

I remember the lighting seemed pretty dreamy and I felt like I'd been there before. Riley's...there's a familiarity inside, as if the place had been standing darn near forever and just about everybody in Texas had passed through its doors at one time or another, including you, including me.

I remember knowing that Riley's Tavern was the first bar in Texas issued a beer permit. Certificate number one. Right after Prohibition collapsed. So, I toasted Riley's longevity with a Lone Star and a Jack. Doesn't get much more American than that, Courtney said with a laugh. Or did she?
